ABOUT

With over 30 years of experience in the profession, our team works dedicatedly, striving to achieve a perfection in physical model representation. We understand the planning and diligence of architects and consultants in preparation of project drawings.

We construct and assemble all our physical models enthusiastically, and can adapt promptly to the changing time constraints put forward by our clientele.

Our team persistently aims for a high degree of precision in scale and detailing of spaces. Over time, we have pushed beyond our limits, to fully comprehend the craft of three-dimensional representation.

Equipped with experience, dedication and a strong will to complete our physical model in an expeditious timeframe, we seek opportunities to befriend new clients, to deliver them with the best of our work and to further hone our skills.

The projects below provide a glimpse of our work.

01 AIRPORTS

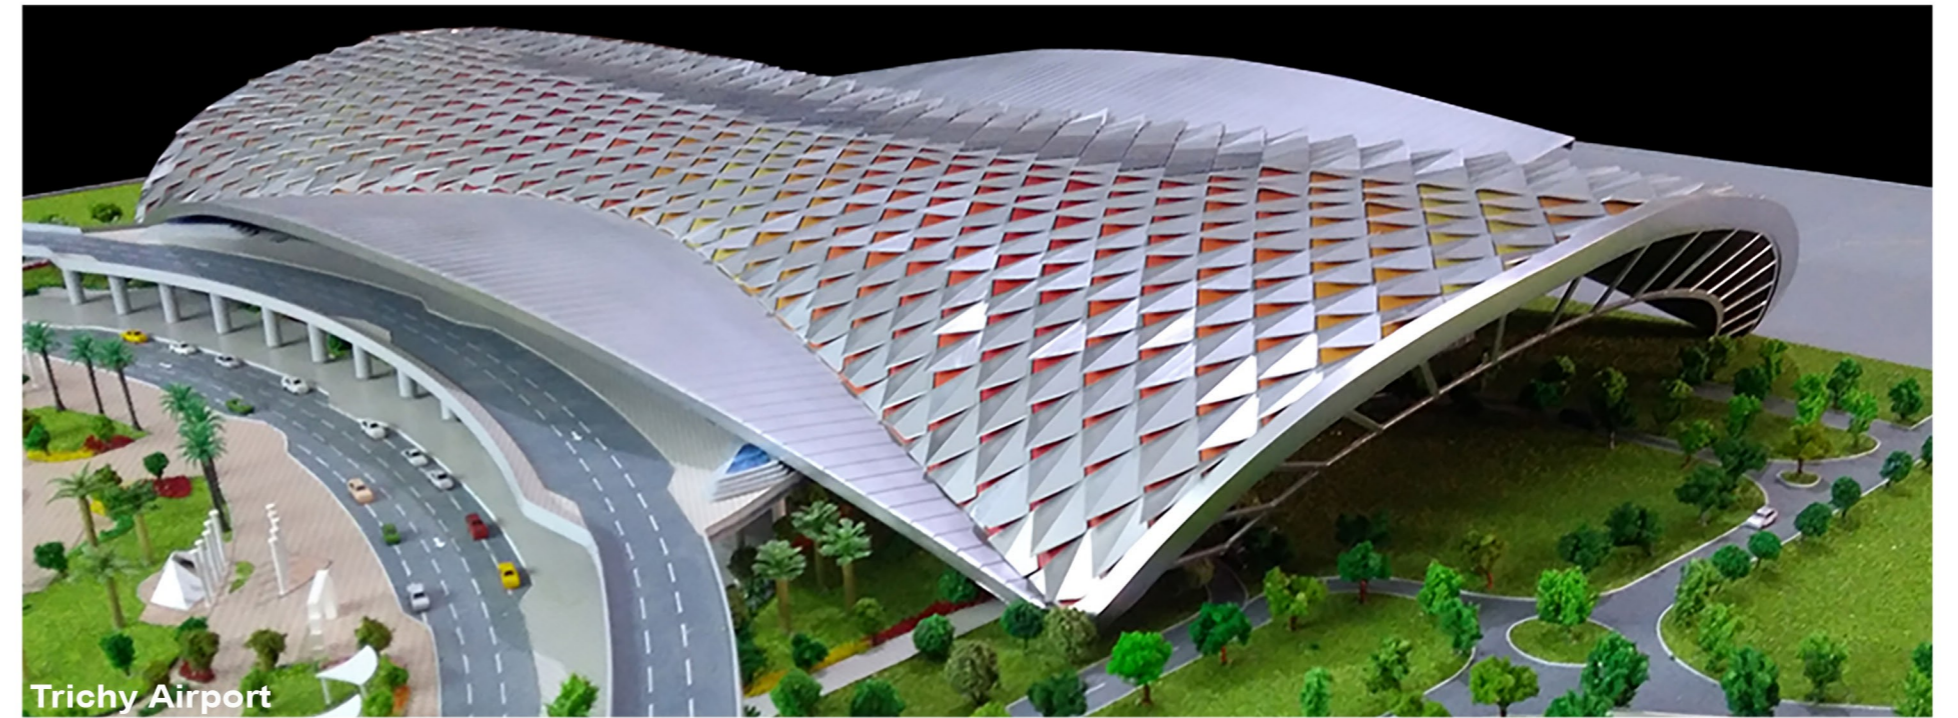

Lucknow Airport

I have done 4 airports till date, namely :

- Indira Gandhi International Airport, New Delhi
- Lucknow International Airport
- Tiruchirappalli Airport
- Pune International Airport

The model for IGI airport was made on a scale of 1:3000.

Lucknow Airport, Tiruchirappalli Airport and Pune International Airport, 2 models of each airport on scale of 1:500 (highly detailed model) and, 1:2000 (less detailed model).
